

Endorsements

The Peace Officers Research Association of Nevada's mission remains focused on the professional, economic, and social welfare of law enforcement officers so they can provide excellence in public safety to the people they serve. We endorse candidates who understand the important job law enforcement officers have in protecting our communities. A vote for these candidates is a vote to support our hardworking officers so they can protect you. PORAN's job is to support efforts to increase training, professionalism, and effectiveness of law enforcement while seeking to improve the social and economic welfare of personnel and their families. It's our duty to endorse candidates who support this mission.
