[Recommendations](#)

- [Partisan Races](#)
- [Judicial Races](#)
- [Other Non-Partisan Races](#)
- [Ballot Questions](#)

In a general election, we are often faced with picking the lesser of two evils. We make these recommendations to prevent those who are likely to do the most harm from earning power.

LVDSA treats recommendations differently than **endorsements**. When we endorse a candidate, we commit a significant portion of our chapter resources to fight to get that candidate elected. Although multiple candidates sought our endorsement in 2022, none of them qualified. The recommendations in this guide are intended solely to help educate voters about their choices, and are based on the specific circumstances of each race. We did not consult with any candidates about their inclusion in this guide.
